## DETAILED ACTION

### *Election/Restrictions*

1. **Note: Applicant's amendment has substantially modified the scope of the claims in such a manner that two-way distinctness now exists between the independent claims, as discussed below.**

2. **Restriction is required under 35 U.S.C. 121 and 372.**

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 2, 3, 5, 6, 8, 15, and 16, drawn to an apparatus.

Group II, claim(s) 4 and 18, drawn to an apparatus.

Group III, claim(s) 9 and 20, drawn to an apparatus.

Group IV, claim(s) 17 and 19, drawn to an apparatus.

3. **The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:**

4. Group I has a special technical feature of a timer device, which is not required by groups II-IV.

5. Group II has a special technical feature of a curing device having processing and/or control units equal in number to a number of substrates moving in a transport direction of a conveyor belt, which is not required by groups I, III, and IV.

6. Group III has a special technical feature of a clamping device for keeping a conveyor belt stationary, which is not required by groups I, II, and IV.

7. Group IV has a special technical feature of a clamping device comprising two clamping jaws guidable toward and away from a conveyor belt, which is not required by groups I-III.

**8. Note: Claims 10-13 will be grouped with the elected invention.**

9. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

10. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
